# Legendary Style

## Timeless Design

Art, like Architecture; when in the hands of the gifted artist, spans the centuries and brings a sense of the timeless. With every effort and total respect for the design period of each project, our staff of professionals work closely with the team employed by their clients to bring "Art and Timelessness" into being on each and every premier residence we work on. From classic European to Supra-Contemporary, Pacific Rim Sash & Door has the materials and experience to help ensure a superior result – each and every time.

When Zen-like contemporary design calls for elemental materials with a clean profile and longevity at its core, we draw from a well of manufacturers and our excitement builds along with our clients; creating one of a kind residences that stimulate and create energy from large glass openings and asymmetrical lines.

Enticingly Unpretentious  
*Stunning Elegance*

STATE OF THE ART TECHNOLOGY  
**Captivating Originality**

Sometimes, the demand for spectacular and never before accomplished shapes and functions call for everyone to think outside of normal parameters and create something new. Making sense with and pacing together with creative designers, architects and manufacturers; new boundaries are imagined and then reached – realizing heretofore unknown methodologies and construction paradigms.

"When we build, let us think that we build forever. Let it not be for present delight, nor for present use alone. Let it be such work that our descendants will thank us for, and let us think, as we lay stone on stone, that a time is to come that these stones will be held sacred because our hands have touched them, and that men will say, as they look upon the labor and the wrought substance of them, "See, this our father did for us."

- John Ruskin, 19th century art critic
